PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 10+ years of experience in building and maintaining scalable web and mobile applications across React.js, Angular, Vue.js, and Ionic frameworks. Proven expertise in full-stack JavaScript development (MERN/MEAN/MEVN), API development and integration, cross-platform mobile development, and cloud deployment via OpenShift. Progressed from trainee to Senior Frontend Developer, taking on lead roles including client communication, technical decision-making, and team ownership across industries such as travel, e-commerce, blockchain, and SaaS. Delivered end-to-end solutions for both startups and enterprise-level clients, consistently working in remote and cross-border collaboration environments.

KEY ACHIEVEMENTS

- Performance improvements (load time, bundle size)
- Team members mentored

EXPERIENCE

Senior Frontend Developer *Eclevar* ***Nov 2024 - Present***

- Architecting clean, high-performance code while continuously leveling up my software design skills
- Orchestrating the development lifecycle to build secure, lightning-fast, and scalable solutions
- Synergizing with product, UI/UX and dev teams to champion best practices across the board
- Transforming creative designs into pixel-perfect React implementations
- Ensuring seamless experiences across all browsers and platforms
- Hunting down bugs and optimizing performance for buttery-smooth interactions
- Engineering robust, testable, and performance-oriented software solutions
- Strategically selecting the perfect architectural patterns for complex business challenges
- Creating standardized front-end practices and building a library of reusable components

Frontend Engineer *MoniePoint* ***Aug 2022 - Oct 2024***

- Develop and maintain highly scalable, reusable, and modular user interfaces using Angular and React frameworks.
- Collaborate with backend engineers, designers, and product managers to implement responsive web applications.
- Translate designs and wireframes into high-quality, efficient code.
- Write clean, maintainable, and well-documented code following best practices.
- Debug and troubleshoot UI/UX issues across browsers and platforms.
- Participate in code reviews to ensure consistency and quality across the codebase.
- Ensure the technical feasibility of UI/UX designs and proactively offer solutions for improvement.
- Stay updated with emerging frontend technologies, frameworks, and best practices.

MeanStack Developer **Travel Resorts of America, Inc** **July 2019 - Sep 2024**
- Designing and maintenance of React and Angular Application
- Using Angular/React to design and develop websites
- Responsible for handling communication with clients abroad
- Responsible for API creation in Node.JS and MongoDB as DB.
- Responsible for the build creation process and deployment in OpenShift.

Project Manager and Developer	***QMESpotlight***	***Aug 2019 - Nov 2019***
JavaScript Developer	***Iplex***	***Apr 2019 - Jun 2019***
JavaScript Developer	**Expanse.tech**	**Mar 2018 - Apr 2019**
AngularJS Developer	***Barefoot&Co***	***May 2017 - Mar 2018***
Web Developer	**BrainLogix**	**Sep 2016 - Mar 2017**

SKILLS
- **Frontend Development:** Component-based architecture, responsive UI design, SPA development, API integration, cross-browser compatibility, pixel-perfect PSD to HTML conversion, and client communication.
- **Frontend Frameworks & Libraries:** React.JS, Angular (All Versions), Vue.JS, Svelte, Electron, JavaScript/jQuery, and AngularJS.
- **Styling & UI:** Bootstrap (All Versions), CSS/LESS/SASS, Tailwind CSS.
- **Mobile Development:** Cross-platform mobile app development, hybrid app architecture, and REST API integration on mobile.
- **Mobile Frameworks:** IONIC Framework (All Versions).
- **Backend & Database:** REST API development, server-side logic, and database management.
- **Backend Technologies:** Node.JS, MongoDB, .NET Framework (C#, ASP.NET, Web Forms, MVC).
- **DevOps & Deployment:** Containerization, orchestration, CI/CD pipelines, build creation, and cloud deployment.
- **DevOps Tools:** Docker, Kubernetes, OpenShift, Git, Git Bash, and SourceTree.
- **Technical Tools:** MS Visual Studio, VS Code, Eclipse IDE.
- **Project & Task Management:** Jira, Trello.

PROJECTS
- **Healthcare & Medical Systems:** Medical Software
- **Fintech & Payments:** Moniepoint
- **Membership & Contract Management:** Membership Management, Contract Management, Agent Management, Lead & Member Assignment, Membership Upgrades, and Dues Management
- **Social & Community Platforms:** Cliiimb Web App and KOWO
- **Communication & Messaging:** Messenger (Instant Text, Audio Calling, Conference Calling, Group Chat, Audio Messaging, and Location Tracker)
- **Mobile Applications:** Cliiimb Mobile App
- **E-Commerce & Retail Fashion:** Outfitters, Ethnic, Super Squad, and Minnie Minors
- **Research, NGO & Non-Profit:** IdeasPk and CERP
- **Personal & Lifestyle:** CarolineDiana
